Incubation

Each project and team are different, so we customize our approach to your work.

After a rigorous selection process, we select a small handful of wildly promising projects to nurture, and bring the future into the present. We provide customized and dedicate support to start-ups of all sizes as they strive to develop the strategies, technologies, teams and capital needed to turn their vision into a successful and sustainable business.

Our team of devs, technologists, lawyers, marketers, community managers, investors and designers are here to support, augment and expedite your team in executing your revolutionary vision.

incub8 Program

As cryptocurrency fever grips the **tech world, and blockchain technologies** gradually become more viable, there is a new wave of crypto and defi-focused community of entrepreneurs that are expanding globally to empower this growing ecosystem.

The ecosystem needs Incubators aimed to support and nurture top-performing talents to foster blockchain innovation.

incub8 is inviting entrepreneurs and helping them incubating the development, and deployment of DLT-based products and solutions.

Innovation needs "a constantly engaged community of entrepreneurs and developers who imagine novel ideas and create new projects to bring innovative products to market."

What is incub8

incub8 is a global defi community that is self-regulated, self-sustained, and offers its own economic ecosystem with the INC token. Incub8 focuses on creating, developing, and implementing use cases involving blockchain and emerging technology.

incub8 is here to support early-stage projects that are helping to create disruptive solutions for larger utility and enabling growth in the crypto, defi, and blockchain industry.

Projects are selected by the community for Incubation and successful ventures are issued as rewards to incub8's stakeholders.

In this ecosystem, the incub8 Board will act as an advisor by providing guidance to its community.

About the Program

We are providing launch pad for pre-seed projects by providing product support, hub services. Join us in a bespoke Incub8 Program to define and build your project.

Startups accepted into the incubation will be provided a boot camp followed by a 10 Week-long training program and a collective demo day.

Incub8 will also help selected start-ups in various areas, including developing prototypes, business plans, focusing on 8 elements such as white papers, marketing strategies, community engagement, legal support , advice, tech resources, PR/Marketing, and fundraising efforts.

The Eight startups will be the first “fellows” of Incub8’s Incubation program, will be selected out of over 100+ applicants to each receive knowledge, contacts, visibility, and fuel of funding in Q1 of 2021.

KNOWLEDGE

incub8 includes mentorship and advice from “experts in the Crypto startup, Defi and blockchain space, to support early-stage open-source development projects.
